PROFILE

Adaptable web developer with a focus on front-end technologies. A quick learner with a keen eye for detail, I excel in efficiently completing tasks in both collaborative and independent settings. Additionally proficient in various backend technologies, database management, and system integration. Seeking a challenging role in web development to contribute my skills to innovative projects, bridging the gap between frontend and backend development.

EDUCATION & QUALIFICATIONS

University of Hertfordshire - Master`s degree MSc Software Engineering 2025

Currently, I am studying MSc in Software Engineering. My modules have allowed me to develop knowledge and skills in the models, methodologies, measures, and tools that can be employed in software development considered an engineering discipline.

Leading University - Bachelor`s Degree Computer Science & Engineering 2021

3.90 out of 4

During my Bachelor, I had the opportunity to learn and explore different areas of computer science such as programming, networking, web development, software engineering, etc.
